

Post Adoption Support Services

Searching for family

A series of **search workshops** are currently being offered by Post Adoption Support Services.

The workshops will look at the process of searching for birth family and explore the emotional preparation that may be needed for searching and/or reunion.

They are suitable for people interested in the search process, (even if you are not wanting to undertake a search at this point), including adoptive parents interested in searching for their child's birth parents.

Information will be presented by Post Adoption Support Services staff and guest speakers with experience in particular areas.

The workshops will be held at

Relationships Australia (SA)
49a Orsmond Street
Hindmarsh
South Australia
